SKILLS

- Angular
- Node.js
- REST API Development
- HTML, CSS, JS, Bootstrap
- Github
- MongoDB

ACCOMPLISHMENTS

Successfully completed a one-year typing and computer fundamentals course, gaining proficiency in basic computer operations.

EDUCATION

SECONDARY SCHOOL

Punjab School Education Board
2020 - 2022

BACHELOR OF ARTS

Panjab University
2023 - 2026

PROFILE

Motivated Web Developer with strong knowledge of HTML, CSS, JavaScript, Bootstrap, Angular, Node.js, and MongoDB. Experienced in building responsive web applications, developing reusable UI components, and creating dynamic, user-friendly interfaces. Skilled in following best coding practices, learning new technologies quickly, and contributing effectively to real-world, full-stack projects within a collaborative development environment.

WORK EXPERIENCE

WAKEUPCODERS - INTERN

web Developer Intern | Jan 2025 – June 2026

- Developed responsive web interfaces using Angular, HTML, CSS, and JavaScript.
- Built reusable UI components following modern design standards.
- Integrated applications with Node.js REST APIs and managed data using MongoDB.
- Handled dynamic data rendering and optimized application performance.
- Collaborated in Agile teams, ensuring cross-browser compatibility.
- Followed best coding practices and maintained clean, scalable code.
- Quickly learned new technologies to support project requirements.

PROJECTS

Trendoradigita.com

Built and optimized a MEAN stack-based digital marketing web platform with emphasis on security, performance optimization, branding, and mobile responsiveness.

- Designed and developed a responsive business website using Angular, HTML5, CSS3, and TypeScript.
- Integrated dynamic components and reusable services to improve UI performance and scalability.
- Implemented secure form handling and validation for customer inquiries and service requests.
- Optimized website structure for performance, SEO, and mobile responsiveness.
- Deployed the application using domain hosting and web server configuration.
- Applied version control using Git/GitHub for code management and updates.
- Ensured cross-browser compatibility and smooth navigation experience.
- Developed with a focus on user experience (UX) and clean UI design principles.

Mehndi Design App & Admin Panel

Designed and developed a full-stack Mehndi Design platform consisting of a React Native mobile app and an Angular-based admin panel for managing designs, categories, and content.

- Developed the mobile app using React Native with a responsive and user-friendly interface.
- Built the admin panel using Angular, HTML5, CSS3, and TypeScript.
- Created and integrated REST APIs for real-time data management and content updates.
- Implemented authentication, form validation, and secure data handling.
- Managed Mehndi designs, categories, and image uploads through the admin dashboard.
- Optimized application performance, scalability, and mobile responsiveness.
- Integrated Google AdMob for app monetization.
- Used Git and GitHub for version control, deployment, and project management.
